Pale Dawn

No. 44-4

41-35 X Matterhorn

— \$15 —

A pale blue Iris which does not fade. The very large, full-petaled, tailored flowers are borne on a strong, perfectly branched forty-inch stalk. The haft is wide and clean. The falls are flaring, and the standards are domed. The plant is very large and vigorous — early and winter hardy.

New Horizon

No. 44-36 (1946)

(Morocco Rose X Hall 40-24)
X Overture

Martin ~~\$30~~ *Stamale*
1946

This is definitely a new color in Iris. Not a pink blend, but a true peach pink self of beautiful form with a tangerine beard and pink buds. The standards, which are slightly deeper peach pink than the falls, are full, ruffled and tightly held. The haft is wide and free from markings. The falls are $2\frac{7}{8}$ inches wide, tailored and flaring. The flowers are above average in size, of exceptional substance, and carried on a strong well-branched stalk. 40 inches tall. Late.

The plant is winter hardy at Chicago; it is vigorous, and an average increaser.

H. C. 1945.

Fire Dance

No. 41-12

— \$15 —

A very red plicata whose glowing depth and richness of color commands the attention of all visitors. The flower is round and full with flaring falls; buff edged in red. The standards are heavily marked all over wine red.

37 inches tall, and well-branched; vigorous and winter hardy; mid-season.

New Snow

No. 44-24 (1946)

Snow Flurry X Fay 41-11

— \$20 —

A white Iris which is neither a warm nor a cold white but is as white as new snow. The beard is full and bright yellow, adding a great deal of life. This is the only color in the flower, as there are no haft markings.

A sturdy and well-branched stalk 40 inches tall holds the large, perfectly formed ruffled flowers well aloft. Mid-season. The plants are completely winter hardy at Chicago. It is a fast increaser and has very dark green leaves and stems.

H. C. 1945.

H. M. 1946.

Zantha

No. 44-12

Gold Medal X 41-22

— \$15 —

A very large deep yellow self, clear and clean, with a deep yellow beard and no haft markings. The flowers are nicely formed; tailored and flaring. The 37-inch stem is strong and well-branched. Winter hardy. H. C. 1946.

Desert Song

No. 44-47 (1946)

Snow Flurry X Golden Eagle

— \$15 —

This Iris was bred especially to fill a need in the light yellow or cream class.

The large, flaring and ruffled flowers are of nice proportions and bloom over a very long season. The flower is a cream self. The haft is clean and the beard yellow.

The stalk is very strong, well-branched and 40 inches tall. Mid-season. Very large plants and a fast increaser. Winter hardy.

H. M. 1946.
